The services offered by the APG outdoor rec are downright shameful. In all my time in the Army (22 years) I have seldom seen an outdoor rec center that offered fewer options. Motor boats are old and dramatically underpowered. Backpacks, sleeping bags and tents are unavailable. Also, the fact that there is no year-round pool for swimming laps is unforgiveable. Many senior soldiers and officers such as myself are unable to run as much as we used to because of back and joint problems. Swimming a mile a day used to keep me in better shape than the short or moderate distances I am able to safely run now. I suggest a complete revamp of both the outdoor recreation center and construction of a new pool to bring facilities up to the normal Army standards. If construction of a new pool is not possible, consider putting up a winter bubble to allow year-long use of the pool for lap swimming. Also, designate early morning or evening hours for work-out swimming.

Overall, I think the activities at Edgewood are inadequate--the workout equipment is old and the recreation facility looks run down. If the excuse is that no one uses the equipment so new equipment isn't needed--it is a lousy one. People don't use the equipment because of its age and appearance.

While many of the services do technically exist (e.g., ticket office), they are poorly run.

The individuals that run the sports tournaments at APG are not well organized and the events show it. More time is required to make events a success (even intramural events).

The Post Bowling Center is terrific! The staff and management go the extra mile to make you well welcome and appreciated! The only drawback to using this facility is the occasional equipment malfunctions that occur in the pin setters, ball returns and computer scoring equipment. The food and beverage service is first-rate and pricing is comparable or below that charge by off-post establishments. It would be nice if they had a "pro shop" on-site. This facility is absolutely terrific, compared to off-post facilities in the local area. I use it regularly and have had several "birthday party" events there.

I may bias your survey as I am a teleworker living remotely from my duty station. I took the survey as a civilian employee but am also retired Army. If I were not, I wouldn't have access to lodging which I use several nights a month.

A comment about lodging. On my duty station it is good at one area of the installation and very good at the other. I do think the installation is using the lodging as a money maker as I can often get a room off-post withing \$10 per night and with that get premium TV channels and a better breakfast. As I travel a lot, I have the opportunity to utilize military lodging from several Services. By far and away, the Air Force is my choice as their rates are almos half of what I usually pay at Army facilities (\$27 to \$30 vs. \$45 to \$63 at my home installation in MD). Still, it is nice to have the additional security of on-post lodging.

If the Chesapeake Challenge Go-Kart and Batting Cages were open during the lunch time 1100-1300, I would visit a couple of times a week. Sometimes even in early evening ~1600-1900. It would be very beneficial if activities and opportunities were made more known. Several times during the survey I thought "I didn't know we had that here on APG!" If things were advertised more often, my wife and I would find more things to do.

I work at the Edgewood area which basically means we have no services - no library, no food service, etc. Basically we are second class citizens. Maybe if we had more General Officers here we would have more services. the only service I make use of are the trips. Angela Keithley does an excellent job. there are a nice selection of trips offered and they are well organized. I would like to see the Community Club revived at Edgewood - it would be nice to have some real food available on post for purchase (not just pizza and burgers). An indoor pool at either area would also be a nice addition.

I am a civilian employee who is nearing retirement; therefore, I don't need or use many of the services offered by MWR. However, I firmly believe that MWR services are some of the most important services that can be on a military installation...especially in this era where so many servicemembers are deployed and their families are left behind to wait and pray for the safe return of their family members. When military members are putting their lives on the line for our country, I believe we need to ensure that their loved ones are well cared for and have all the necessary services available to keep their lives as normal as possible...and that means placing a top priority on MWR services.

1. From personal experience, the Child Development Center at APG-Edgewood Area is superb! A fantastic, well-trained, responsive, caring staff is on hand to care for infants/children. Having affordable, high-quality childcare on base at APG is important to the quality of life and peace of mind of working moms and dads. Having an excellent childcare center here at APG is an important factor in considering where/when to work after having a baby.
2. Concerts I have attended at APG have all been affordable and enjoyable.
3. Suggestion: Bring more food establishments to the APG-Edgewood Area to encourage employees to stay on post to eat lunch. Selection is very limited at this time.

It is good that the APG fitness centers do not charge a fee any longer for DA civilians. This is more consistent with policies at other Army installations.

Reservists/Members of the National Guard are part of the Army team too, and all signs to MWR facilities should reflect that (ie it should not say just active duty military/DA civilian/contractors are eligible to use).

APG MWR should consider offering a 5K or 10K running race on APG, perhaps once a year.

Child services: I have been displeased when the CDC is either closed or closes early on workdays. I was told that CDC employees don't get 59 minutes when the rest of post does so they make it up to them on these other days. I would think that if we picked our kids up 59 minutes early they could let some of the staff leave early. These closures have resulted in either myself or spouse having to take leave to care for our child (when we pay for FT daycare).

I did not use "crises intervention" but I was unable to unclick it.

It is interesting to find that the post commander "combined" the two flying clubs that were at apg and edgewood areas then closed them down, but when it comes to the boaters there are still two disticnt marinas and two different boat operations (i think under mwr) on the one installation.

I think there MWR is very important to both the civilians and military here at APG. There appears to be a lot different activities that are offered that as a civilian I would like to participate in, but are unaware of these programs. I should be more proactive in looking at the website, but it would be useful to possibly provide quarterly bulletins to indicate what is planned in the future months.

Took MWR kayaking class onpost 2 years ago; loved it! Would like to see additional classes, maybe once-a-month kayak outings, exploring APG's shoreline and other local areas.

Keep up the great work on the country concerts! They are a great bargain, and it's wonderful not to have to go to Baltimore to see top acts!

Digital photography and bicycle maintenance classes (in the spring/early summer) would be great. (I believe Dick Schwanke, who teaches bike maintenance for HCC, works at APG.) Would like to see a class in cross-country skiing next winter.

I think they should do more with the old officer's club. It's a beautiful place and there are no good "specials" for people who live and work on post so it's never that crowded. I'd try to get the place packed with employees, etc... the place is beautiful and right on the water!!

I just think the Army has so many wonderful facilities and one of the benefits to working as a civilian for the army used to be all of the MWR activities that made you feel part of your installation. I hope this will become a priority for the army community again!

Because I live so far away, it is not reasonable for me to try and use any of the on post facilities or activities. Once I move I may be more inclined to participate. I also would like to be given more information about what activities are offered. I have been on this post for over a year as either a contractor or civilian employee and I never knew some of the offerings on this post until I was forced to take this survey. I would like more notifications or information given to new employees and existing employees so we can learn about these opportunities.

Tried to get into Child Care Services. Applied when my wife was only 4 weeks pregnant and still the service was not available. I find this very hard to believe that I can apply 1 year in advance of my need for child care and still the service is not available because supposedly the infant rooms are booked. I think that's a scam, and because of that I will never use these services nor recommend these services to anyone.

Having my kids close to me during the day at the Child Development Center is the greatest gift and makes me much more productive at work because I know that they're well taken care of and close by. We were priority two on the list and couldn't get the youngest in right away and were using an off-post center for him and switched him when there was an opening. The Aberdeen CDC is is not only close but of wonderful quality and I can't say enough good things about them.

Overall, I think that MWR is a good organization, but I haven't really taken the time to learn much about it. The only facilities that I regularly use on post are the fitness centers.

I have looked at the apgmwr web site, and find it to be pretty informative. I would like to pursue some other activities in the future. One reason that I haven't used some of the facilities (other than the fitness centers) is that I don't know where anything is located. The web site provides building numbers, but no maps. Providing a map would be very helpful.

I would like to see improvement to any/all of the tennis courts. I used Plumb Point (9 hole golf course) frequently in the past, it has since been closed. I would like to see Plumb point re-open. I would also participate in any Poker tournaments (Texas Hold Em) and Billiard tournaments. I use Ruggles GOLF Course frequently, please continue maintenance of course. I would suggest keeping the snack bar/restaurant at Ruggles open later. Also, we used to play softball at the Marylander...I know several people that would play in an on-post softball, if this were brought back.

I used the Child Development Center full-time for my son since he was 10 weeks old. I was very happy with the center and they took very good care of my son. My son loved it. However, when my husband retired last October, I could no longer afford to keep my son in the center full time. My son was 4 yrs old and not in school. He missed the center and his friends there. I was willing to pay for a day per week so my son could spend time with his friends and his care-givers (which he loved dearly). However, the center is not flexible and does not have the space for part-time care. They have a calendar that you have to sign up a month before and hope to get a space for the day you choose. And...if you can't make it that day, you pay anyway. That didn't work for me since I was paying for days when my son couldn't be there. I then reverted to calling each week and asking if they had any space one day that week. However, the answer always was: "we are full." I finally gave up and had to make an excuse to my son as to why he couldn't see his friends any more. I just feel that if you are a full-time paying customer for years (4 yrs in my case)...and are happy with the service...you should not be turned away so easily just because you are no longer a full time customer. I felt that since I was no longer paying for full-time daycare (category 5) that they didn't want my business nor did they care. I was very disappointed in how I was treated and that my son lost out on participating in the center that he loved. It's a shame.

At the fitness center in Edgewood a new floor was recently installed. The odor from that new floor is horrible. I cannot workout in that room any longer and must stay back in the other rooms. I feel that this odor is most likely harmful to those working out, not to mention how awful it must be for the people that work there. I ask that something be done about this as soon as possible. I really think it is a health hazard.

Would like to see more eating establishments in the Edgewood area for the civilian and military personnel during the day, and more recreation and eating establishments after hours for the young soldiers that have to be housed here. They have nothing to do in the Edgewood area after hours. Would like to see more outdoor activities offered for the young soldiers assigned to the Edgewood area along with transportation to get to the desired locations. To APG, Edgewood is the last considered - the orphan child.

It was a little more difficult in completing the survey in that APG has two parts to it, Main Post and Edgewood. Main Post is great, Edgewood has little or nothing. Those of us who work in Edgewood would like to see more improvements and activities to this area.

I fail to understand why you sent me this survey. I have been to APG once in my life. APG is so far away, that it would be a day trip to get there for one hour and return. I am on the mailing list for retirement information that comes out of APG and this is my only connection with APG. Some of your questions were incomplete. You assumed that if I bowl, I buy equipment. I don't. I rent the ball and shoes as needed. The reason I do not use the closest on-post bowling alley is everytime I have tried to use it, there has been league play and no openings. I bowl because my son's psychologist says my son and I need to do more things together and he likes bowling even though he has never won a game. What is the difference between a Child Development Centers and a Family Child Care Centers? It seems to me that a development center would have regular problems that people would enroll their child for development purposes. The family (?) child care center would be offering care only without regular programs. People who need to help with the children so they could go to the doctors, or shopping or have time out with their spouse would need child care center at all hours of the day without penalties for late pickups etc. A development center would be better for child who needs more stimulation for development purposes. BUT IT IS ALL FAMILY. If I were you, I would throw out my input to this survey.

My family had enjoyed participating in ceramics during my career. Aberdeen Proving Ground was the only installation that did not offer ceramics at both locations. Ceramics classes were normally held in the evening and my family members did not feel safe traveling to Edgewood to participate in the classes. The schedule in order to participate were difficult to attend if the person was working as well. They eventually tried finding these classes and Aberdeen. It would have been nice to have the same programs offered on both posts.,

Being retired, I find off-post services better for my age, on-post services for young troops. Also I have no hassle going to places off-post compared to getting on post( security). Also, nothing is open in the evening that would attract me to use the facilities on post. In short,I live off post, my friends are off-post, there is more things to do, better eating establishments, better theaters, better shopping ( the PX is no longer price competitive).

The golf program is a great value. I believe the golf program brings in more money than any other MWR activity yet the golf program does not retain a fair share of its profits for course sustainment/improvement and maintenance equipment upgrades.

The food service section has never been properly managed and is in a constant state of flux. Hire a professional food service manager with a realistic budget or else contract out the food service concession. Mark up on snack foods is terrible, higher than vending machine prices! Make a decision on the "Bar" either it is and make it functional or it isn't and take it out it is just wasting space.

Restrict "outside agency outings" to 1200 or later on federal holidays and weekends. Don't be penny foolish hire a golf professional to oversee the golf program!

I think the programs now offered to MILITARY PERSONAL are much better than when I was on active DUTY. I find that now military personal have better ways to use there time than just drinking. I think that with these programs we are helping to PROVIDE FOR THE MILITARY a better serviceman than ever before. With the computer & internet age it is very important to provide new services for the soldier. Today's soldiers are better educated & as a result need a better quality of entainment (inernet & computer gaims) than those of 5 to 10 years ago.

I consider as very valuable the services provided by MWR to our military communities.

My concern is that very frequently a large number of the MWR employees providing the services do not appear to have a sense of belonging to the community they serve. Thus their attitude is reflected by the disrespectful and impersonal way they treat the customers.

MWR employees typically do not greet new customers; do not acknowledge military ranks; when asked questions the customer receives a "I do not Know" rather than an offer to help.

Although many MWR employees are dedicated and are willing to provide a positive service to their customers, the truth is that overall customer treatment is poor and thus discourages repeat visits to the facilities.

I feel that child care prices on post are not regulated, because of the way the prices are set by what you make between you and your spouse. It seems that we work for the child care services with the amount of money that we pay for 2 children, it will be better if I stayed at home than work, which at this time is not possible. I also believe that there is not enough offered for teens on this post, and the movies only open on Fridays and Saturdays, but if there is a training holiday for the soldiers we get no movies which is not right, we live here when they are gone.

I am a retired Army officer and was stationed at APG from 1981-1984 (USAMSAA). I do NOT live nearby, but near Ft. Meade, where I retired. Recently, I visited APG because my niece is attending USMC MOS training at the Ordnance School. Most of this survey did not apply to me. I suggest that you better screen individuals to whom you send such surveys. I may visit APG a few more times between now and my niece's graduation in June. Otherwise, I might stop by APG once every few years. Last time I visited, it was to show my son the Ordnance Museum.

I visit Ft. Meade about once per month (PX, commissary) or less frequently. My wife shops there, at the commissary and PX, every other week. We have both had same-day surgery at Ft. Meade. We live about 15 miles from Ft. Meade.

We also visit WRAMC and NNMC (Bethesda Naval Hospital) for medical appointments, about once per month.

I currently work as an Army civilian at the Pentagon.

I hope the above information helps.

The length of this survey is a bit much-over 40 screens!

MWR in general is an absolute blessing to have especially when on active duty due to the convenience and the cost savings--and it does provide a boost in morale-unquestionably which off sets the heavy demands of being on active duty. As a retiree it is a blessing to help with the cost of living on an army pension and still be able to afford recreational activity when one finally has some time to enjoy it. In some places the equipment could use more repair or maintenance but in general the equipment is satisfactory but not state of the art and for the price that is OK. In general the staff in all areas could use customer satisfaction feedback at the time of service--maybe this would provide a better attitude towards the customers--instead of a "this is just a job" attitude. This attitude of the employees is always what jumps out at me when checking out equipment or asking for assistance. The recreational travel offices and the golf course personnel in many installations seem to be more attuned to this and I have seen noticable improvement in these two "activities' staff and how they relate to me and my family as customers. The hale koa staff sets the standard as far as I am concerned from the time that you check in until one checks out. Even housekeeping is extremely polite and friendly there.

Thank-you for caring about soldiers, families and retirees. The quality of our lives is so much improved and affected by the MWR services.

In all the post that we have stayed at I have nothing but excellent things to say about the MWR program until we got here. The program is outdated and the people who work there are very rude and don't have time to help you. This is not a military friendly post, it is a civilian friendly post. Since it a training post not a lot of things are offered to the soldiers who are stationed here and I think that should be changed. Every place on post to included the PX offer services and time of operations based on the students being here or not which leaves the permanant party soldiers out of luck. This would be a great place if the programs, equipment, and buildings were keep up to date and offer more services with friendly and helpful people working there.

I did not fill out this survey because it is in regards to Aberdeen Proving Ground. My husband is in the SMDC in Arlington, VA. We live in Glen Burnie, MD and use Fort Meade for most of our military related activities. I've never been to Aberdeen Prove Ground and therefore felt that I could not accurately answer these survery questions. Unfortunately, there was no place on this site that allowed me to change to the proper post for myself and my family. I would be glad to fill out a survey in regards to Fort Meade.

Our MWR Services seem to only finance country music concerts. My family would like to see a Gospel concert, but it would be good to begin with anybody of color. Every country concert definitely send me a message. It says, "We really don't care about any other group of people."

The On post bowling center has good facilities but only one decent cook. If she is not there you take your chances with a rude, ignorant staff.

Youth Services offers a lot to keep my son busy by way of sports, but there is always confusion as to what other services I pay my yearly registration fee for. The staff is uneducated and nonchalant about the times and days that I can bring my children to the youth center.

I would like to see a nice family restaurant on post that is open regular hours, unlike Top of the Bay.

This is only the second time in 23 years of marriage to a soldier that I have lived on post. Aberdeen has been relatively warm to us and, with the exception of an unpleasant experience with a supervisor at Lodging several months ago, I have had nothing but positive experiences with the staffs at APG facilities. Thanks for making this a great place to live, especially during my husband's recent deployment. I don't know what I would do without the post library--kudos, especially, to the library staff! Also, thanks to the Re-nu-it Center staff. They are always friendly and helpful.

do not feel staff is adequately educated in their fields, and do not feel they portray professionalism

**Overall Comment**

The MWR Food and Beverage program at APG is deplorable. The facilities are run for the convenience of the staff, not the members or the patrons. Who ever heard of a golf course without a bar, or that it only serves beer. Small bottles of wine could be served from the same cooler as the bar, but then that would mean the staff would have to inventory the product and it appears that is too much work.

Staff at the facilities always have the same answer for all concerns or issues, THERE IS NOTHING THEY CAN DO ABOUT IT, IT IS THE COMMANDS DECISION, WE TRIED IT YEARS AGO AND IT DOES NOT WORK. If salaries are being paid to individuals to manage, then empower them to make decisions.

The quality of the food being offered at the facilities is poor. food is too often overcooked, oversalted, and in general not healthy. More choices for heart healthy and low carb foods should be made available.

### Overall Comment

Our family's morale is positevely the lowest here at APG than it has been during our time as an ARMY family. The first four years of our marriage my husband was deployed 36 months. In the last year he has been stationed at APG. His unit has no FRG. I was "welcomed" by his commanders wife after being here for eight moths... only because he was promotable to E7. As a new spouse at APG there was no briefing or information given to me. We were not able to stay in on post lodging upon arriving because it was full of OBC students. We had to fend for ourselves off post and had considerabe out of pocket expense that we were not reimbursed completely for. The welcome packet we called for before moving here was a photocopied pamphlet containing wrong phone numbers and misinformation. And after ten months I am still searching for the post library.

I am appaled by the treatment of lower Enlisted soldiers and the continuous politics of this post. At Thanksgiving time my husband's command gave monetary gift certificates to E7 and above leaving soldiers with families in the lower enlisted ranks without. Trips for children to the white house and inagural ball tickets were made available to only that same select few. And to add further to my frustration This was the first year the Ordnance ball is only open to E8 and above.

After supporting my husband and his unit during two deployments to Kuwait and then Iraq during our short marriage I was looking foreward to enjoying some of the good things Army life has to offer and building memories for when the next deployment comes around. I must say that APG falls sadly short of my expectations.

I believe life for all on APG could be made better if family activities were offered to all regardless of religion, sex, age, race, rank, or social affiliation.

My husband has been stationed at APG for 4 years and we've lived on the Edgewood side the entire time. Mostly, the services are directed first to the students and civilian DoD workers and then to soldiers living on the Aberdeen side. Edgewood is left out of all lunchtime programs and most after work programs because of time and distance. Additionally, the one trip we participated in required us to drive to Aberdeen to catch the bus that drove south towards Baltimore and could have easily stopped to pick us up on Edgewood instead of making us sit on a bus an extra 30 minutes each way. I'm tired of no commissary, no PX, our boat rentals were closed, no place to work on our vehicles, nothing except and arts and crafts center on Edgewood.

We live in the Edgewood area of APG. This post is geared for the student soldier even though there are family housing units here and many families. The small shopette we have closes at 5-6 pm, its even smaller food court isn't even open on weekends. There is nothing here for the spouse/children. There IS a gym and a swimming pool. I've been told they are closing the library. I am extremely glad my kids are grown and not with us for this tour. I WAS able to borrow dishes when we first arrived from the lending closet.

While I realize that money is in extremely short supply on this post, I am extremely worried at the potential loss of the library. The library on post serves both the families who live here as well as soldiers who are here for schools and cannot go off-post. The building has been condemned and there is the threat that the library will be boxed up and put into storage. This would be an extreme shame to both the Army and the community!!

Just as an additional note...if money ever could be allotted, there should be a walking track made around Plumb Point Loop where the old golf course used to be. A large number of runners and walkers currently use the loop, especially during lunch time (1100-1300) and it is dangerous since many times they walk 5-across and vehicles cannot easily maneuver around all of them. Also, many of the residents of the area walk dogs and children and would greatly appreciate a place to walk out of the line of traffic.

The Employment Readiness Program should help military spouses to get a job not only facilitate web site links. The airlines tickets are a lot more expensive than purchasing tickets from cheap tickets, orbitz (online). This post should have an indoor swimming pool. MWR shold promote activities and trips handling paper or notice to each unit so we can be aware of what is happening, sometimes the tv give to many announcement before getting to trips or on post activities. The gym equipment should be updated.
